WORK EXPERIENCE

Backend Developer
Omni App Solutions

08/2019 - 02/2020   *Ho Chi Minh city, Vietnam*

Achievements/Tasks

- Leveraged Python and the Django framework to build a multi-tenant web application for online class booking and scheduling.
- Implemented the Django Rest Framework to handle routing and API requests.
- Collaborated with team leader and peers through pair programming and brainstorm sessions.
- Utilized Coverage and Factory Boy to write automated unit tests for all components to ensure over 95% coverage.

Cloud Computing Intern
Pacisoft Vietnam

06/2018 - 08/2018   *Ho Chi Minh city, Vietnam*

Achievements/Tasks

- Leveraged Azure services to deploy a web app on IIS Web Server and SQL Server.

EDUCATION

Bachelor of Electrical and Computer Engineering
Posts and Telecommunications Institute of Technology

09/2014 - 09/2019

SKILLS

Python   Django   HTML/CSS   ES6   React

Git   Webpack

PERSONAL PROJECTS

CV Creator (11/2021)
- A React SPA to make a minimalist resume.
- Managed states and props among input fields to render single-column resume. Users can easily add more or remove sections to fit their qualifications perfectly.
- Keywords: React, Hooks, gh-pages

Network (10/2021)
- a Twitter-like social website that allows users to make posts, follow other users, and "like" posts.
- Keywords: DRF, Vanilla JS, AJAX, PostgreSQL, Heroku, Server-side rendering.
- Lessons learned: the need of client-side rendering, the reusability of html components and the importance of the separation of production and development settings.

LANGUAGES/CERTIFICATES

TOEIC 860 (2019)
Professional Working Proficiency
